

CASE STUDY: High spec external works package to a national leading new private school

Location: Tewkesbury
Project: Private School

Our Work: CSG were appointed to deliver the package for a private school in Tewkesbury. The school had been closed for years and recently undergone heavy investment to bring the school up to date and ready to welcome students in September 2024.

The full scope of works included:

- Roads
- Car park
- Bus parks
- Resin bound paths
- Sports pitches
- Playgrounds
- Communal areas
- School entrance

Snapshot

- Completed ahead of schedule in just 10 weeks
- Worked collaboratively with Tarmac

CASE STUDY: High spec external works package to a national leading new private school

Location: Tewkesbury
Project: Private School

DETAILS:

- Sports court: We installed Porous MUGA sports grade asphalt working collaboratively with Tarmac. Followed by sprayed dark blue and UK regulated netball and basketball markings added.
- Disabled Access: Assisted to the design plan to make entrance areas all inline with new building regulations for disabled access to all buildings on campus.
- Sustainability: All hard surfacing was laid to sustainable urban drainage systems standards ensuring impact to the environment was minimal and is SUDS compliant
